Dear Parents,

The Science Fair is an event where Science comes alive, thanks to the ideas and research of students! It is open to all students in grades 4-7. Our school Science Fair will be held on March 1, 2018. Judging will take place during the school day and there will be an Award Ceremony held in the evening.

If your child wants to participate, he/she needs to do one of the following:

- Develop a project (investigation) in an area that he/she chooses and complete a scientific experiment.
(i.e. "What is the effect of soda on teeth?")
- Choose a topic to research for the purpose of sharing learned information.
(i.e. Electricity)

If your child is interested in being an active part of the Science Fair, please complete and return the bottom portion of this letter, by December 15th. At that time, your child will receive their Science packet with further information. Please note, for projects to be considered for Canadian Interior Regional Science Fair, they must follow the Scientific Method.

The website www.sciencebuddies.org is a fantastic place to start because you can take a quiz that will find project ideas for your child, based on his/her interests.

If you have any questions, please contact, Mrs Svendsen at the school or email ksvendsen@cispg.ca

Yes, my child _____ wants to be part of the Science Fair!

He/She would like to do the following kind of project: An experiment / A research project

My topic is going to be: _____
